Portfolio: Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, TypeScript, and JavaScript (ES6+). Strong expertise in Redux Toolkit, React Query, Axios, Firebase, REST API integration, reusable component architecture, performance optimization, and direct client communication.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
State Management: Redux, Redux Toolkit, Context API, React Hooks, Custom Hooks
Data Fetching: React Query (TanStack Query), Axios, REST APIs
UI Libraries: Material UI, Shadcn UI
Tools: Git, GitHub,Jira,Asana
AI Development Tools: Cursor, ChatGPT, Antigravity, Claude AI

PROFESSIONAL EXPERIENCE

Software Associate | Ditstek Innovations Pvt. Ltd.
March 2023 – March 2026

- Developed scalable and responsive web applications using React.js, Next.js, TypeScript, and JavaScript.
- Built reusable and modular UI components to improve maintainability and development efficiency.
- Implemented Redux Toolkit and React Query for state management and API caching.
- Integrated RESTful APIs using Axios and Firebase services for authentication and real-time data handling.
- Developed dashboards, search, filtering, sorting, pagination, and role-based access control features.
- Collaborated directly with clients to gather requirements and provide technical solutions.
- Participated in sprint planning, code reviews, deployments, and production support.
- Optimized application performance through lazy loading, code splitting, and memoization.

PROJECTS

Knowledge Sharing & Training Management Platform
Tech Stack: React.js, TypeScript, Firebase, Algolia, Chart.js, Tailwind CSS, TipTap Editor
- Built a centralized platform for knowledge sharing and training management.
- Implemented Firebase Authentication and role-based access control.
- Integrated Algolia Search and analytics dashboards.
- Developed Groups, Courses, and Knowledge Management modules.

Inventory & Retail Management System
Tech Stack: React.js, TypeScript, Redux Toolkit, React Query, Material UI, REST APIs
- Developed inventory and product management interfaces.
- Built reusable UI components and scalable frontend architecture.
- Implemented advanced filtering, sorting, searching, and pagination functionality.
- Optimized API communication using React Query caching mechanisms.

CORE COMPETENCIES

• React.js • Next.js • TypeScript • Redux Toolkit • React Query • Axios • Firebase • REST APIs
• Responsive Design • Performance Optimization • Agile/Scrum • Git & GitHub

EDUCATION

Bachelor of Engineering
Chandigarh University | 2014 – 2018
